Eshoo Statement on Ruling Against NSA Wiretapping Program

August 17, 2006

Washington, D.C. -- Rep. Anna Eshoo, D-Palo Alto, released the following statement in response to the decision today by U.S. District Judge Anna Diggs Taylor in *ACLU v NSA*:

"I had deep concerns about this program when it was first revealed by the news media last December. Since being briefed on it by the Bush Administration, I have always maintained that this security program could and should operate fully under the Foreign Intelligence Surveillance Act.

"This is an important and welcome decision that bears watching through the appellate process."
